What's in the Box

1. Air Touch V1 Air Purifier: 1 Unit
2. Pre-Filter + HEPA H13 Filter + Activated Carbon (Compound Filter): 1Unit
3. Power Adapter: 1 Unit
4. User Manual: 1 Unit
5. Warranty Card: 1 Unit
6. Thank You Card: 1 Unit

Performance Index

Product Name	Air Touch V1 Air Purifier
Adaptor Input	100-240V~, 50-60Hz or 50/60Hz, 0.6A or 1.0A
Device Input	24V ⎓ 0.5A
Rated Power	12W
Amount of Particulate – Cleaned Air (CADR)[1]	152m³/h
Noise (High Speed)	51dB/A
Noise (Low Speed)	29dB/A
Components	Pre-Filter + HEPA H13 Filter + Activated Carbon (Compound Filter)
Suggested Period To Replace Filters[1]	3 in 1 Compound Filter Life Up To 9000 Hours Or 1 Year
Product Weight	1.5 kg
Product Measurements	216 x 216 x 322 mm

1. For the air that passes through the filter, Purification performance parameters are tested under specific third-party laboratory conditions with specific dust particles and formaldehyde gas as target pollutants. Overall particle reduction depends on many factors including the amount of air processed, the pollutant type and the pollutant introduction rate into the environment.

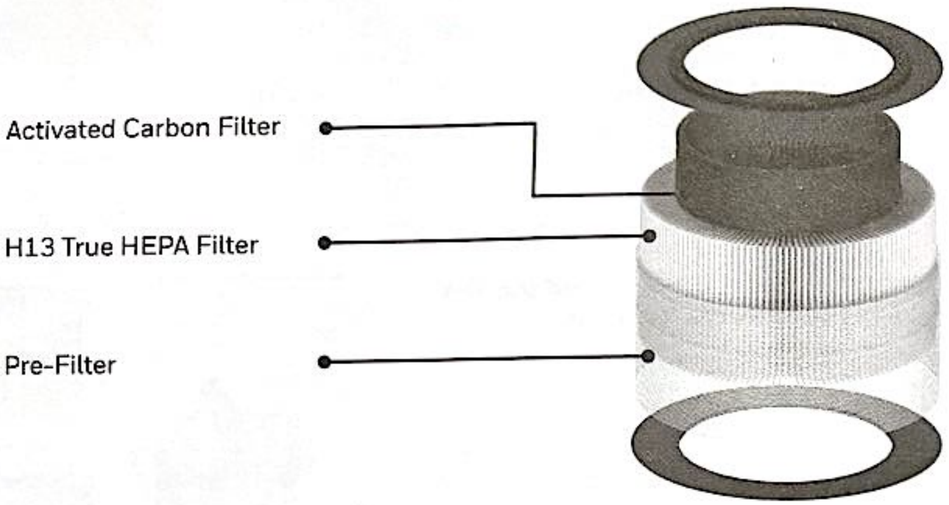
Installing The Filter (Continued)

5. The air purifier is equipped with Pre-Filter + HEPA H13 Filter + Activated Carbon (Compound Filter) that will lasts up to 9000 Hours or 1 Year, depending upon usage.



Function Description

Power

When the Air Purifier is plugged in to the wall socket and is on standby, touch the "POWER" button to turn on the Air Purifier. If the "POWER" button is touched again, the Air Purifier goes into standby mode.

Speed

When powered on, the air purifier will start working at high fan speed by default. It also has a fan speed button to set the desired fan speed.

Filter

Filter reset: When the red indicator light illuminates, the Filter replacement is required. After replacing the Filters touch the power and fan speed button for 5 seconds so that the Filter timer can be reset. The filter icon will flash 3 times and then go off.

During Installation

1. Place the air purifier on a dry, stable, and firm surface. Make sure not to block the top air outlet vent and air intake grill.

2. Connect the power adaptor to the DC socket located on the air purifier. Plug the adaptor into an AC electrical outlet.

   CAUTION: Only use the power adaptor that is provided with the unit. Do not use other power adaptors.

3. Tap the power button (⏻) to turn the unit ON.

4. When powered on, the air purifier will operate on high fan speed (III) mode by default. To select a desired fan speed, tap the fan speed button (🌀) to change the fan speeds, I (low), II (medium), III (high), until the desired speed setting is illuminated.

5. Important: Always turn OFF and unplug the air purifier when not in use.

Safety - Precautions For Use

1. Do not pick or move the Air Purifier while it is powered on. When moving or storing, do not pull the power adapter. This may cause a short circuit or cause internal damage to the power adapter. This may lead to a fire or electric shock. Do not cut, excessively twist, pull, or bend the power adapter. If the power adapter is damaged, for your safety please contact us at support@honeywellconnection.com

2. Use only 100V-240V AC power. Using a power source that exceeds this rating may lead to overheating and cause a fire.

3. Do not touch the power adapter with wet hands while it is plugged into the wall socket. This may result in electrical shock.

4. Do not place your fingers or metal objects into the exhaust vent or supply vent. This may cause electrical shock or injury.

5. To avoid electrical shock or fire, do not allow water, flammable cleaners, or other liquids to enter the Air Purifier from the exhaust vent or supply vent.

6. Air Purifier cannot replace normal ventilation equipment, vacuum cleaners, or kitchen fans.

Safety - Precautions For Use (Continued)

7. Please do not use the Air Purifier near gas appliances, heating appliances, or stoves.

8. Do not use the Air Purifier in a humid or hot environment, such as shower or rest room or kitchen.

9. Do not place the Air Purifier up-side-down when not in use.

10. This Air Purifier must not be disposed of with domestic waste. All users are obliged to hand in all electrical or electronic devices, regardless of whether or not they contain toxic substances, at a municipal or commercial collection point so that they can be disposed of in an environmentally acceptable manner. Consult your municipal authority or your dealer for information about disposal.

11. This Air Purifier can be used by children aged 8 years and older and persons with reduced physical, sensory, or mental capabilities or a lack of experience and knowledge if they have been given supervision or instruction concerning the safe use of the Air Purifier and understand the hazards involved. Children shall not play with the Air Purifier. Cleaning and user maintenance shall not be done by children without supervision.

12. The Air Purifier should be only used with the power adaptor provided with it.

13. Do not place the Air Purifier in an unstable place, this may cause the Air Purifier to topple or fall down. This can lead to injury, electrical leakage, or fire.

14. Do not use the Air Purifier in a room that is using an incense-type insect repellent.
    - Chemical residue may accumulate in the Air Purifier and then cause harmful fumes to be released.
    - After using an insect repellent or mosquito coils, allow the room to be fully ventilated before using the Air Purifier.

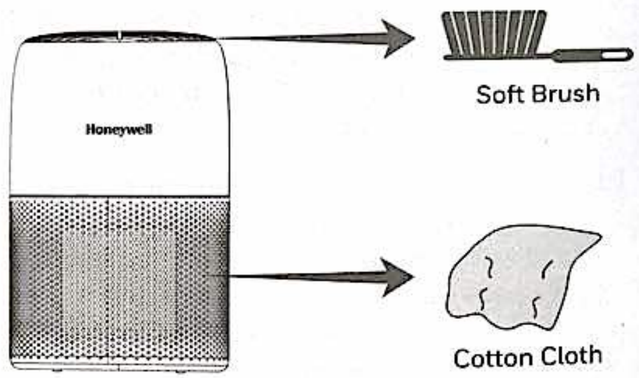
Care For Your Air Purifier

1. Should any of the following conditions occur, turn off the Air Purifier immediately.
   - Strange noises or vibrations during operation.
   - Air Purifier or power adapter is unusually hot or has a burnt odour.
   - Any other abnormalities or malfunctions.
2. Please clean the power adapter regularly.
   If there is dust or moisture on the power adapter it could damage it. This may result in a fire.
   - Unplug the power adapter and wipe it with a dry cloth.
   - Unplug the power adapter from the wall socket if the Air Purifier is not going to be used for a long period of time.
3. Before electrical maintenance in your premises, make sure to unplug the Air Purifier from the wall socket.
4. Please plug the power adapter securely into the wall socket. If the power adapter is not securely plugged, it may cause overheating which may lead to electrical shock and even fire.
5. Do not attempt to disassemble the Air Purifier, any such attempt may lead to a hazard or electrical shock or injury.

Cleaning and Maintenance



1. Before cleaning the air purifier, turn OFF and unplug the air purifier.
2. Clean the exterior surface with a clean damp cloth.
3. Clean the top air vent with a small soft brush.
4. To clean the 3 in 1 compound filter only use a dry, soft cloth to wipe it down.

Note:
1. Do not allow moisture to encounter with the main housing of the air purifier.
2. Never use detergents, gasoline, glass cleaner, furniture polish, paint thinner, or any other chemical to clean the air purifier or filter.
3. Do not use water to clean the 3 in 1 compound filter.
